#### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### Accounting Practices

The financial statements of The Penn Insurance and Annuity Company of New York (the "Company") are presented on the basis of accounting practices prescribed or permitted by the New York State Department of Financial Services.

The Company recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the New York Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of New York.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of New York is shown below:

#### Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

(1) Basis for Short-Term Investments
The Company does not own any short-term investments.
(2) Basis for Bonds and Amortization Schedule

Bonds not backed by other loans are stated at amortized cost using the interest method.

(3) Basis for Common Stocks

Unaffiliated common stocks are held at fair value.

(4) Basis for Preferred Stocks
Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32 - Preferred Stock.

(5) Basis for Mortgage Loans

The Company does not own any mortgage loans on real estate.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities.

(7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities
The Company does not own any investments in subsidiaries, controlled or affiliated entities.
(8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities

The Company does not own any investments in joint ventures, partnerships or limited liability entities.

(9) Accounting Policies for Derivatives

The Company does not own any derivatives.

(10) Anticipated Investment Income Used in Premium Deficiency Calculation

The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.

(11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses
The liabilities for losses and loss/claim adjustment expenses for accident and health contracts are not applicable.

(12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period The Company has not modified its capitalization policy from the prior period. (13) Method Used to Estimate Pharmaceutical Rebate Receivables

The Company does not own any pharmaceutical rebate receivables

#### NOTE 20 Fair Value Measurements

(1) Fair Value Measurements at Reporting Date
The Company's financial assets have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100-Fair Value
Measurements. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets
(Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's classification is based on the lowest level input that is significant to its measurement. The following are the levels of the hierarchy and a brief description of the type of valuation inputs that are used to establish each level:

Pricing Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets that the Company's pricing sources have the ability to access. Since the valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant amount or degree of judgment.

Pricing Level 2 - Valuations based upon quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets; or valuations based on models where the significant inputs are observable (e.g. interest rates, yield curves, prepayment speeds, default rates, loss severities) or can be corroborated by observable market data.

Pricing Level 3 – Valuations that are derived from techniques in which one or more of the significant inputs are unobservable, including broker quotes

The following presents the Company's fair value hierarchy for assets and liabilities that are carried at fair value:

- Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall. The following fair value methods and assumptions were used by the Company in estimating the fair value disclosures for financial instruments:

Cash and Cash Equivalents: The admitted asset amounts approximate their fair value due to their short-term nature.

Investment Securities:Fair values for investment securities are based on market prices published by the SVO, or in the absence of SVO published unit prices or when amortized cost is used by the SVO as the unit price, quoted market prices by other third party organizations, where available. For fixed maturity securities not actively traded, fair values are estimated using values obtained from independent pricing services. The following presents a summary of the carrying values and fair values of the Company's financial instruments:
